**Comments:**

A good turnout at the handicap race....many thanks to all those who attended....hope you enjoyed the handicap format. The administration skills of the finish area officials were sorely tested by many athletes finishing close together! As a result, times after position 14 are approximate, but should be accurate to +/- 5 secs. Graham Leggett was a clear winner, performing well above his previous level of performance. The second and third runners, Stephen Shaw and Thomas Wall, also achieved significant advances against their previous form. Fastest times were recorded by unattached athletes, Gary Wilson and junior Emily Struthers. Our thanks are due to all those who acted as helpers and also to Sharon Gayter and Jon Williams for presenting the prizes. An end of season series report will follow shortly.
